## About me

To apply my knowledge and ideas in my field of interest and continuously upgrade my skills for the betterment and uplifting of the industry and humanity in general, so as to have a purposeful career

## Education

2013-17

### B. TECH (ECE)

Dibrugarh University, Dibrugarh: Assam

2011-13

### HIGHER SECONDARY

Govt. Boys' HS School, Nagaon: Assam

2005-11

### HIGH SCHOOL

Govt. Boys' HS School, Nagaon: Assam

## Skills

### ReactJS

### Redux

### HTML-5

### CSS-3

### Javascript

### Tailwind CSS

### Reactstrap

### Material UI

## Certificate

### RELEVEL BY UNACADEMY

Trained Certification Program at Relevel by Unacademy, where I got industry level training on React.js development.

## Work Experience

### SOFTWARE DEVELOPMENT ENGINEER

#### Chipster Technologies (August, 2022 to Present)

As a Software Development Engineer at Chipster Technologies, I've led the **Ria-app** project for **IQCIO**'s Fintech initiative, currently in testing. This platform analyzes global stock markets for insights. Additionally, I'm gearing up for our next venture, **colledge.us**, a multifaceted platform for job seekers and student recruitment.

Using ReactJS, I've created a web app for Ria-app with interactive charts for financial data visualization. With a focus on user experience and accuracy, these charts offer seamless navigation through market trends.

My fintech journey has deepened my ReactJS skills and understanding of the industry. I excel in fast-paced environments, delivering top-notch software solutions using agile methodologies.

## Co-curricular activity

Social Service Secretary at Dibrugarh University.

Event Manager at Auxesis 5.0.
